

ABB IRB 5300

The used ABB IRB 5300 is engineered to be customized for individual opening applications. The versatile, high-performance wall mount robot's unyielding construction makes for the ability to exactly follow the movement of the doors. All used ABB IRB 5300 have undergone an intense refurbishment process and include the RobotWorx Value Package.

The reconditioned ABB IRB 5300 is equipped with conveyor tracking and comes with a full servo control, and smooth and flexible motion. The electric motor of the used ABB IRB 5300 is designed with 3 or 4 axes and can be floor-mounted, on clean-wall or in-booth rail.

For more information about the ABB IRB 5300,
