KUKA KR 16

The Kuka KR 16 packs a lot of power into a small frame. The accurate, swift mover KR 16 has a 16 kg payload and 1610 mm maximum reach. An excellent solution for diverse applications, the KR 16 is easily customized.

Constructed from light-weight alloy, the KR 16 design provides strength and flexibility. Its compact structure allows for floor, ceiling and wall mounting. Protected joints give the KR 16 KR C2 a clean, streamlined build.

Easy to install and run, the KR 16 KR C2 offers top performance in any process - from material handling to welding, cutting, or coating. The KR 16 can use either the KR C2 or KR C4 controller.

For more information about the KUKA KR 16, contact a Robotworx representative today at 740-251-4312.
