The KUKA KR 700 PA palletizing robot is capable of palletizing extremely heavy loads at high speeds. The KR 700 KR C2 has a 4-axis system has a low weight and powerful motors and gears. The result is an arm that has a payload of 700 kg and a working speed of 15 cycles per minute. The record-breaking long reach of the KR 700 PA KR C2 allows for a lot of installation flexibility. It can be installed on a pedestal or directly on the floor.
